Hi again BCs,

Just wanted to let you know that Claire, Charmaine, and I sent comments on the PID template. See attachment for posterity.

FYI BCs,

We have a very short window to provide feedback on the PID template.

BEAD TLs will meet tomorrow and discuss, I hope.

Caleb

Subject: RE: PRD's PID template revisions

The majority of the changes are to the drafting notes and the tolerance discussion, which I don't think BEAD will have a lot of input on. However, we hear from CRMs that BEAD had made lots of suggested edits to the benefits and mitigation

discussion sections in previous quarter. If you'd like to take a look at those again and give us any feedback, that would probably be most helpful.

Ricardo,

Are there certain places where there have been a lot of changes where we might prioritize our review?

Thank you.

Caleb

Subject: PRD's PID template revisions

BEAD TLs,

PRD is getting ready to finalize its PID template. If there are any particular sections you wanted to check, or any changes you wanted to convey, you can do so with the link to the draft below. The changes planned for the upcoming quarter are marked in track changes. Please let us know if you have any comments or edits by COB this Wed. if possible. I apologize for the short timeframe, but this had to go through multiple rounds of review, and CRMs are needing the new template as soon as possible. It may be more conducive to your feedback to provide these comments at a later time, once you've reviewed this quarter's document. If you prefer to do it that way, feel free to contact Marianne Mannix to coordinate your feedback. We just wanted to be sure to offer BEAD a chance to provide any broader feedback before we released the new version.

Our newer template also uses macros to fill in options in certain places. If you want to view the options you'll have to follow the instructions in the user guide. Below is a link to the draft template and associated documents. Please let me know if you have any questions.
